

One Hundred Third Congress  
of the  
United States of America

AT THE SECOND SESSION

*Begun and held at the City of Washington on Tuesday,  
the twenty-fifth day of January, one thousand nine hundred and ninety-four*

An Act

To designate certain lands in the California Desert as wilderness, to establish the Death Valley and Joshua Tree National Parks, to establish the Mojave National Preserve, and for other purposes.

*Be it enacted by the Senate and House of Representatives of  
the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

Sections 1 and 2, and titles I through IX of this Act may be cited as the "California Desert Protection Act of 1994".

**SEC. 2. FINDINGS AND POLICY.**

(a) The Congress finds and declares that—

(1) the federally owned desert lands of southern California constitute a public wildland resource of extraordinary and inestimable value for this and future generations;

(2) these desert wildlands display unique scenic, historical, archeological, environmental, ecological, wildlife, cultural, scientific, educational, and recreational values used and enjoyed by millions of Americans for hiking and camping, scientific study and scenic appreciation;

(3) the public land resources of the California desert now face and are increasingly threatened by adverse pressures which would impair, dilute, and destroy their public and natural values;

(4) the California desert, embracing wilderness lands, units of the National Park System, other Federal lands, State parks and other State lands, and private lands, constitutes a cohesive unit posing unique and difficult resource protection and management challenges;

(5) through designation of national monuments by Presidential proclamation, through enactment of general public land statutes (including section 601 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2743, 43 U.S.C. 1701 et seq.) and through interim administrative actions, the Federal Government has begun the process of appropriately providing for protection of the significant resources of the public lands in the California desert; and

(6) statutory land unit designations are needed to afford the full protection which the resources and public land values of the California desert merit.

(b) In order to secure for the American people of this and future generations an enduring heritage of wilderness, national parks, and public land values in the California desert, it is hereby declared to be the policy of the Congress that—

(1) appropriate public lands in the California desert shall be included within the National Park System and the National Wilderness Preservation System, in order to—

(A) preserve unrivaled scenic, geologic, and wildlife values associated with these unique natural landscapes;

(B) perpetuate in their natural state significant and diverse ecosystems of the California desert;

(C) protect and preserve historical and cultural values of the California desert associated with ancient Indian cultures, patterns of western exploration and settlement, and sites exemplifying the mining, ranching and railroad history of the Old West;

(D) provide opportunities for compatible outdoor public recreation, protect and interpret ecological and geological features and historic, paleontological, and archeological sites, maintain wilderness resource values, and promote public understanding and appreciation of the California desert; and

(E) retain and enhance opportunities for scientific research in undisturbed ecosystems.

## **TITLE I—DESIGNATION OF WILDERNESS AREAS TO BE ADMINISTERED BY THE BUREAU OF LAND MANAGEMENT**

### **SEC. 101. FINDINGS.**

The Congress finds and declares that—

(1) wilderness is a distinguishing characteristic of the public lands in the California desert, one which affords an unrivaled opportunity for experiencing vast areas of the Old West essentially unaltered by man's activities, and which merits preservation for the benefit of present and future generations;

(2) the wilderness values of desert lands are increasingly threatened by and especially vulnerable to impairment, alteration, and destruction by activities and intrusions associated with incompatible use and development; and

(3) preservation of desert wilderness necessarily requires the highest forms of protective designation and management.

(d) ALTERNATIVES.—If the Secretary, after consultation with the Secretary of the Navy, concludes that decontamination of any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is not practicable or economically feasible, or that the land cannot be decontaminated sufficiently to be opened to operation of some or all of the public land laws, or if Congress does not appropriate a sufficient amount of funds for the decontamination of such land, the Secretary shall not be required to accept the land proposed for relinquishment.

(e) STATUS OF CONTAMINATED LANDS.—If, because of their contaminated state, the Secretary declines to accept jurisdiction over lands withdrawn by this title which have been proposed for relinquishment, or if at the expiration of the withdrawal made by this title the Secretary determines that some of the lands withdrawn by this title are contaminated to an extent which prevents opening such contaminated lands to operation of the public land laws—

(1) the Secretary of the Navy shall take appropriate steps to warn the public of the contaminated state of such lands and any risks associated with entry onto such lands;

(2) after the expiration of the withdrawal, the Secretary of the Navy shall undertake no activities on such lands except in connection with decontamination of such lands; and

(3) the Secretary of the Navy shall report to the Secretary and to the Congress concerning the status of such lands and all actions taken in furtherance of this subsection.

(f) REVOCATION AUTHORITY.—Notwithstanding any other provision of law, the Secretary, upon deciding that it is in the public interest to accept jurisdiction over lands proposed for relinquish-

## **TITLE X—PROTECTION OF BODIE BOWL**

### **SEC. 1001. SHORT TITLE.**

This title may be cited as the “Bodie Protection Act of 1994”.

### **SEC. 1002. FINDINGS.**

The Congress finds that—

(1) the historic Bodie gold mining district in the State of California is the site of the largest and best preserved authentic ghost town in the western United States;

(2) the Bodie Bowl area contains important natural, historical, and aesthetic resources;

(3) Bodie was designated as a National Historical Landmark in 1961 and a California State Historic Park in 1962, is listed on the National Register of Historic Places, and is included in the Federal Historic American Buildings Survey;

(4) nearly 200,000 persons visit Bodie each year, providing the local economy with important annual tourism revenues;

(5) the town of Bodie is threatened by proposals to explore and extract minerals: mining in the Bodie Bowl area may have adverse physical and aesthetic impacts on Bodie’s historical integrity, cultural values, and ghost town character as well as on its recreational values and the area’s flora and fauna;

(6) the California State Legislature, on September 4, 1990, requested the President and the Congress to direct the Secretary of the Interior to protect the ghost town character, ambience, historic buildings, and scenic attributes of the town of Bodie and nearby areas;

(7) the California State Legislature also requested the Secretary, if necessary to protect the Bodie Bowl area, to withdraw the Federal lands within the area from all forms of mineral entry and patent;

(8) the National Park Service listed Bodie as a priority one endangered National Historic Landmark in its fiscal year 1990 and 1991 report to Congress entitled “Threatened and Damaged National Historic Landmarks” and recommended protection of the Bodie area; and

(9) it is necessary and appropriate to provide that all Federal lands within the Bodie Bowl area are not subject to location, entry, and patent under the mining laws of the United States, subject to valid existing rights, and to direct the Secretary to consult with the Governor of the State of California before approving any mining activity plan within the Bodie Bowl.

### **SEC. 1003. DEFINITIONS.**

(c) **VALIDITY REVIEW.**—The Secretary shall undertake an expedited program to determine the validity of all unpatented mining claims located within the Bodie Bowl. The expedited program shall include an examination of all unpatented mining claims, including those for which a patent application has not been filed. If a claim is determined to be invalid, the Secretary shall promptly declare the claim to be null and void, except that the Secretary shall not challenge the validity of any claim located within the Bodie Bowl for the failure to do assessment work for any period after the date of enactment of this title. The Secretary shall make a determination with respect to the validity of each claim referred to under this subsection within two years after the date of enactment of this title.

(d) **LIMITATION ON PATENT ISSUANCE.**—

(1) **MINING CLAIMS.**—(A) After January 11, 1993, no patent shall be issued by the United States for any mining claim located under the general mining laws within the Bodie Bowl unless the Secretary determines that, for the claim concerned—

(ii) all requirements established under sections 2325 and 2326 of the Revised Statutes (30 U.S.C. 29 and 30) for vein or lode claims and sections 2329, 2330, 2331, and 2333 of the Revised Statutes (30 U.S.C. 35, 36, 37) for placer claims were fully complied with by that date.

(B) If the Secretary makes the determinations referred to in subparagraph (A) for any mining claim, the holder of the claim shall be entitled to the issuance of a patent in the same manner and degree to which such claim holder would have been entitled to prior to the enactment of this title, unless and until such determinations are withdrawn or invalidated by the Secretary or by a court of the United States.

(a) IN GENERAL.—Notwithstanding the last sentence of section 302(b) of the Federal Land Policy and Management Act of 1976, and in accordance with this title and other applicable law, the Secretary shall require that mineral activities be conducted in the Bodie Bowl so as to—

In lieu of filing the affidavit of assessment work referred to under section 314(a)(1) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1744(a)(1)), the holder of any unpatented mining or mill site claim located within the Bodie Bowl shall only be required to file the notice of intention to hold the mining claim referred to in such section 314(a)(1).

(d) REGULATIONS.—The Secretary shall promulgate rules to implement this section, in consultation with the Governor of the State of California, within 180 days after the date of enactment of this title. Such rules shall be no less stringent than the rules promulgated pursuant to the Act of September 28, 1976 entitled “An Act to provide for the regulation of mining activity within, and to repeal the application of mining laws to, areas of the National

Park System, and for other purposes” (Public Law 94-429; 16 U.S.C. 1901-1912).

No later than 3 years after the date of such enactment, the Secretary shall submit to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Natural Resources of the United States House of Representatives a report that discusses the results of such review and makes recommendations as to which steps (including but not limited to acquisition of lands or valid mining claims) should be undertaken in order to achieve these objectives.

**SEC. 1007. AUTHORIZATION OF APPROPRIATIONS.**

There is authorized to be appropriated such sums as may be necessary to carry out this title.

**SEC. 1104. DELTA REGION HERITAGE CORRIDORS AND HERITAGE AND CULTURAL CENTERS.**

(a) FINDINGS.—The Congress finds that—

(1) in 1990, the Congress authorized the Institute of Museum Services to prepare a report assessing the needs of small, emerging, minority, and rural museums in order to identify the resources such museums needed to meet their educational mission, to identify the areas of museum operation in which the needs were greatest, and to make recommendations on how these needs could best be met;

(2) the Institute of Museum Services undertook a comprehensive eighteen month study of such needs with the assistance of two advisory groups, surveyed 524 museums from throughout the Nation, held discussion groups in which rep-

representatives of 25 museum groups participated, and conducted case studies of 12 museum facilities around the Nation;

(3) on the basis of this assessment, the Institute of Museum Services issued a report in September, 1992, entitled, "National Needs Assessment of Small, Emerging, Minority and Rural Museums in the United States" (hereinafter "National Needs Assessment") which found that small, emerging, minority, and rural museums provide valuable educational and cultural resources for their communities and contain a reservoir of the Nation's material, cultural and historical heritage, but due to inadequate resources are unable to meet their full potential or the demands of the surrounding communities;

(4) the needs of these institutions are not being met through existing Federal programs;

(5) fewer than half of the participants in the survey had applied for Federal assistance in the past two years and that many small, emerging, minority and rural museums believe existing Federal programs do not meet their needs;

(6) based on the National Needs Assessment, that funding agencies should increase support available to small, emerging, minority, and rural museums and make specific recommendations for increasing technical assistance in order to identify such institutions and provide assistance to facilitate their participation in Federal programs;

(7) the Delta Initiatives Report made specific recommendations for the creation and development of centers for the preservation of the cultural, historical, and literary heritage of the Delta Region, including recommendations for the establishment of a Delta Region Native American Heritage and Cultural Center and a Delta Region African American Heritage and Cultural Center with additional satellite centers or museums linked throughout the Delta Region;

(8) the Delta Initiatives Report stated that new ways of coordinating, preserving, and promoting the Delta Region's literature, art, and music should be established including the creation of a network to promote the Delta Region's literary, artistic, and musical heritage; and

(9) wholesale destruction and attrition of archeological sites and structures has eliminated a significant portion of Native American heritage as well as the interpretive potential of the Delta Region's parks and museums. Furthermore, site and structure destruction is so severe that an ambitious program of site and structure acquisition in the Delta Region is necessary.

(b) IN GENERAL.—The Secretary, in consultation with the States of the Delta Region, the Chairman of the National Endowment for the Arts, the Chairman of the National Endowment for the Humanities, the Director of the Smithsonian Institution, the Lower Mississippi Delta Development Center, Historically Black Colleges and Universities, and appropriate African American, Native American and other relevant institutions or organizations in the Delta Region, is further directed to prepare and transmit to the Congress a plan outlining specific recommendations, including recommendations for necessary funding, for the establishment of a Delta Region Native American Heritage Corridor and Heritage and Cultural Center and a Delta Region African American Heritage Corridor and

(d) DELTA REGION AFRICAN AMERICAN HERITAGE CORRIDOR AND HERITAGE AND CULTURAL CENTER.—(1) The plan referred to in subsection (b) of this section shall include recommendations for establishing a heritage corridor or trail system, consisting of one or two major north-south routes and several east-west-spur loops to preserve, interpret and commemorate the African American heritage and culture in the Delta Region during all significant historical periods.

(2) Such plan shall make specific recommendations for representing all forms of expressive culture including the musical, folklore, literary, artistic, scientific, historical, educational, and political contributions and accomplishments of African Americans in the Delta Region.

(3) Such plan shall make specific recommendations for implementing the findings of the Delta Initiatives Report with respect to establishing an African American Heritage Corridor and Heritage and Cultural Center and related satellite museums in the Delta Region, together with specific funding levels necessary to carry out these recommendations and shall also include recommendations for improving access of small, emerging, minority or rural museums to technical and financial assistance.

(4) Such plan shall be conducted in consultation with institutions of higher education in the Delta Region with expertise in African American studies, Southern studies, archeology, anthropology, history and other relevant fields.

(5) Such plan shall make specific recommendations for improving educational programs offered by existing cultural facilities and museums as well as establishing new outreach programs for elementary, middle and secondary schools, including summer programs for youth in the Delta Region.

(e) GRANTS.—(1) In furtherance of the purposes of this section, the Secretary is authorized to make planning grants to State Humanities Councils in the Delta Region to assist small, emerging, minority and rural museums selected on a financial needs basis in the development of a comprehensive long term plan for these institutions. The Secretary is also authorized to make implementation grants to State Humanities Councils in the Delta Region who, in consultations with State Museum Associations, shall make grants to small, emerging, minority or rural museums for the purpose

of carrying out an approved plan for training personnel, improving exhibits or other steps necessary to assure the integrity of collections in their facilities, for educational outreach programs, or for other activities the Secretary deems appropriate including the promotion of tourism in the region. Such institutions shall be selected competitively and on the basis of demonstrated financial need. The Secretary is also authorized to make grants to State Humanities Councils to update, simplify and coordinate the respective State Works Progress Administration guides and to develop a single comprehensive guide for the Delta Region.

(2) The Secretary is authorized to provide grants and other appropriate technical assistance to State Humanities Councils, State museum Associations, and State Arts Councils in the Delta Region for the purpose of assessing the needs of such institutions. Such grants may be used by these institutions to undertake such an assessment and to provide other technical, administrative and planning assistance to small, emerging, minority or rural institutions seeking to preserve the Delta Region's literary, artistic, and musical heritage.

(f) MUSIC HERITAGE PROGRAM.—(1) The plan referred to in subsection (b) of this section shall include recommendations for establishing a Music Heritage Program, with specific emphasis on the Mississippi Delta Blues. The plan shall include specific recommendations for developing a network of heritage sites, structures, small museums, and festivals in the Delta Region.

(2) The plan shall include an economic strategy for the promotion of the Delta Region's music, through the participation of musicians, festival developers, museum operators, universities, economic development districts, and other relevant individuals and organizations.

Archeological Centers, a study of the feasibility of establishing a Delta Antiquities Trail or Delta Antiquities Heritage Corridor in the Delta Region.

(2) Such study shall, to the extent practicable, use nonintrusive methods of identifying, surveying, inventorying, and stabilizing ancient archeological sites and structures.

(3) In undertaking this study, the Secretary is directed to enter into cooperative agreements with the States of the Delta Region, the State Archeological Surveys, and Regional Archeological Centers located in Delta Region institutions of higher education for on-site activities including surveys, inventories, and stabilization and other activities which the Secretary deems appropriate.
